About Southern Dome, L.L.C., a Kinder Morgan Company

Kinder Morgan Energy Partners owns a majority interest in and operates Southern Dome, which provides gathering and processing services within the Southern Dome prospect in the southern portion of Oklahoma County. Southern Dome also operates a 3.4-mile gathering system and 9.6-miles transmission lines.

SouthernDome, LLC., is committed to operating safely, efficiently and responsibly. Company personnel and representatives are committed to building relationships with those stakeholders in the communities in which the Company operates.

Products Transported and Counties Involved

Product	Description	Health and Fire Hazards	Counties Involved
Natural Gas	<p>Leak: Gas</p> <p>Vapor: Lighter than air. Very flammable and a white vapor cloud may be visible near the site of a leak.</p>	<p>Health: Extremely high concentrations may cause irritation or asphyxiation. Possible presence of H₂S*, a toxic gas.</p> <p>Fire: Extremely flammable and easily ignited by heat, sparks or flames.</p>	Cleveland Oklahoma

***Hydrogen Sulfide (H₂S or “Sour” Gas)** Colorless, transparent natural gas with a characteristic of a rotten-egg/“sulphuric” odor at low concentrations and not detectable by odor at high concentrations.

Health: Same characteristics as natural gas with additional risks: exposure will deaden the senses and is poisonous if inhaled and fatal in elevated concentrations.

Fire: Same characteristics as natural gas with elevated sulfur dioxide release when ignited.
