About SemGas, LP

As part of the US energy industry’s midstream segment, SemGas, LP provides an infrastructure that helps move natural gas from the well head to the marketplace. The company offers customers natural gas gathering, processing and storage services. SemGas’ gathering and processing assets are located in Northern Oklahoma with a plant located near Hopeton, Oklahoma. They include 200 miles of gathering pipeline. SemGas’ operations in Oklahoma are positioned to help move natural gas into areas of the US where energy supplies are diminishing. The company provides its customers cost-effective means to process natural gas, take advantage of market price swings and benefit from seasonal fluctuations in natural gas demand.
