About Stephens Production Company

Stephens Production Company operates natural gas gathering pipelines within Oklahoma. These pipeline systems transport natural gas from remote production areas to local natural gas processing facilities where natural gas liquids are extracted before transportation to other transmission pipeline systems.

Products Transported and Counties Involved

Product	Description	Health and Fire Hazards	Counties Involved
Natural Gas	<p>Leak: Gas</p> <p>Vapor: Lighter than air. Very flammable and a white vapor cloud may be visible near the site of a leak.</p>	<p>Health: Extremely high concentrations may cause irritation or asphyxiation. Possible presence of H₂S, a toxic gas.</p> <p>Fire: Extremely flammable and easily ignited by heat, sparks or flames.</p>	Beckham Haskell Kingfisher Latimer LeFlore Logan Sequoyah Woods
Produced Water	<p>Leak: Liquid</p> <p>Vapor: Not Available</p>	<p>Health: Irritation of the eyes and skin may occur with exposure. Vapors may cause central nervous system effects. Possible presence of H₂S, a toxic gas.</p> <p>Fire: Flammable. Fire is associated with natural gas condensate floating on the surface of produced water. Runoff to sewer may create fire or explosion hazard downstream of the source. Gases may form explosive mixtures with air.</p>
