EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control, and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding Summit Utilities emergency response plans and procedures, contact us directly.

ALWAYS CALL 811 BEFORE YOU DIG!

For your safety, always contact 811 before you dig. Call 811 or submit an online request at OKIE811.org at least 48 hours (excluding weekends and holidays, and day of the call) before you dig. It's easy, it's free and it's the law.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited
